DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 25-32 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claim 25 states the limitation "the pattern having a lesser quantity of the adhesive at each of the starting and ending areas to resist a flow of adhesive into the gap at a junction after placement of the components". Applicant's make no such disclosure in the specification or the drawings to have such a lesser quantity of adhesive at the starting and ending areas. Indeed, Applicant entire disclosure teaches having a greater amount of adhesive at the ends. Therefore it is the Examiner's determination that these claims are not enable by the instant specification. Moreover, since the proper scope of the claims cannot be determined, no art has been applied against these claims.

Allowable Subject Matter

Claims 13-24 and 33-41 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Specifically, Applicants have submitted entirely new claims with different combinations of limitation than that which was originally presented.

Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
